

EcoSafe®

# SLIMLINE BUNDED OIL STORAGE TANK

With over 40 years experience, the Kingspan Titan EcoSafe range is known for designing and manufacturing innovative ways to store, dispense and protect fuel. We pioneered the worlds first environmentally responsible bundled oil storage tank - leading change in our sector and setting global industry standards.

The New 1000 litre slimline bundled oil tank has been specifically designed and built to provide responsibly safe and secure heating oil storage whilst offering the perfect solution to premises with limited space and access restrictions.

This new slimline model shares the same trustworthy characteristics as the EcoSafe family including:

› **QUALITY DESIGN AND SPECIFICATION**

Quality product and quality service ensuring absolute peace of mind.

› **EXCELLENT CUSTOMER SERVICE**

Exceptional customer service is our priority including full technical and after sales support, a trustworthy guarantee and fast delivery times.

**10 YEAR**  
TANK GUARANTEE \*

\*1 year on parts

## EcoSafe®

### ESSL1000

The New ESSL1000, totally enclosed bunded oil storage tank is ideally suited to premises with limited space and access restrictions. This model shares the same trustworthy characteristics as the EcoSafe family which offers tanks up to 9,000 litres.

The ESSL1000 has a smaller footprint than a standard oil tank at only 1.52m<sup>2</sup>. This Slimline model is the perfect solution for contractors, making it much easier to manoeuvre and fit into tight spaces.

The EcoSafe range of tanks are also a popular choice with installers as they are easily installed and maintained and come with the ready to fit WatchmanAlarm Tank Pack.

#### BENEFITS

- › Enhances your overall heating system.
- › Due to the robust nature and durability of our integrally bunded tank the EcoSafe range promises to help safeguard your property value against potential oil spills or ground contamination.
- › Remote oil level monitor reduces the possibility of running out of oil.
- › Increased security due to lockable lid protecting your fuel.
- › WatchmanAlarm - receiver monitors the level of oil from inside the premises and provides both a sudden drop alarm and low level alert feature.
- › No need for external site gauges to monitor fuel level, which eliminates a potential leak point.
- › The EcoSafe range helps eliminate oil spills which can contaminate land and reduce your property value ... FACT!

### WATCHMAN ALARM TANK PACK for EcoSafe Tanks

All EcoSafe tanks come complete with a Watchman Alarm tank pack, greatly reducing installation time.

#### Tank Pack consists of:

1. WatchmanAlarm Transmitter
2. WatchmanAlarm Receiver
3. PTFE Tape5
4. Heldite
5. Heldite Applicator
6. Gate Valve and Filter

Parts shown are for a 10mm Bottom Outlet Kit.
